TECHNICAL SKILLS

Languages

C++ • Java • Python
SQL • JavaScript (ES6+)

Web & Frameworks

HTML/CSS • JavaScript
Flask • JavaFX

Concepts

Data Structures, Relational
Database Design, OOP

Tools

Git, GitHub

LANGUAGES

English — Professional
Urdu — Native
Shina, Kohistani — Fluent
Punjabi, Pashto — Basic

ACTIVITIES

Member, IEEE
Member, ACE (Ambassadors of
Computer Engineers)
Member, MLSA (Microsoft Learn
Student Ambassadors)

SUMMARY

5th-semester BSCE (Computer Engineering) student with hands-on experience building database-driven, data-structure-heavy, and GUI applications in C++, Java, and Python. Comfortable across the stack — SQL schema design, server-side logic, application development, and front-end web development (HTML, CSS, JavaScript, Flask) — and looking to bring that foundation to a software development internship.

EDUCATION

COMSATS University Islamabad, Lahore Campus

Bachelor of Science in Computer Engineering (BSCE) — 5th Semester — Expected 2028

HITEC School & College for Boys, Taxila

Intermediate (ICS) — 81% overall (88% in 11th class) — Gold Medalist, Best Performance in Boards

AMACG

Matriculation (SSC) — 94% overall (98% in 9th class)

EXPERIENCE

CloudExify — Summer Intern

Jul 2026 – Aug 2026

- Completed hands-on C++ development tasks covering program design, data structures, and CRUD-based application logic as part of a structured internship curriculum.

PROJECTS

Personal Portfolio Website | HTML, CSS, JavaScript (ES6+)

- Built and deployed a fully responsive personal portfolio site from scratch, live at arslanalam.netlify.app.
- Implemented scroll-based active navigation highlighting using the JavaScript IntersectionObserver API.
- Added SEO metadata (Open Graph, Twitter Card, JSON-LD structured data) to improve link previews and search visibility.

Vaccination Management System | SQL, Python

- Designed a relational database to track vaccination records, immunization schedules, and patient data.
- Built the data layer to support record lookups and schedule tracking for administrators.

Accounting Management System | Java, JavaFX

- Built a desktop application for logging monthly salary and daily expenses across categories.
- Generated an automatic pie-chart breakdown of expense ratios at month end using JavaFX charting.

Cricket Score Tracker | C++

- Implemented ball-by-ball scoring with live scoreboard updates and automatic strike rotation.
- Used a linked list to manage the batting order and a max heap to surface the top batsman and bowler in real time.
